8 – 10 October: **International brokerage (matchmaking) event – R2B meetings as scheduled:** available at: <https://r2bittc2018.b2match.io/>

A matchmaking event is a quick and easy way to meet potential cooperation partners. Researchers meet the entrepreneurs and discuss their needs and offers. Each meeting lasts up to 30 minutes. Last years' brokerage event attracted over 60 participants from nine countries. The majority of participants are active in the field of ICT, physics, materials, environment, robotics, biotechnology, manufacturing etc.

Session I: Introductory Speech

9:20 – 9:50

How to build up a technology platform at one – or a consortium of – university(ies)?
Should industry be involved early on?
How do you attract industry interest when the platform has been established?
What is the role of spin-outs?

Dr. Jon Wulff Petersen, director, Technology Transfer, Plougmann Vingtoft, Denmark

9:50 – 10:20

Key Enabling Technologies (KETs) as a basis for innovation.
How can KET Technology Centers (KET TCs) help modernising Europe's industrial base, to shift to a greener economy, and drive the development of entirely new industries?
How can KET TCs help bridge the European 'Valley of Death'?
How to increase KETs-related manufacturing in the EU and how KET TCs and industry can collaborate better to increase the exploitation of the patents inside EU?
Bio Base Europe Pilot Plant example.
