

The 5th International Technology Transfer Conference

26th and 27th of September 2012

POSTER SECTION – INSTRUCTIONS FOR AUTHORS

1. Aim of the poster section

The poster section of the 5th International technology transfer conference **is designed to inventive and innovative projects**, which with their applicable value are interesting and useful to the economy. The aim is to **promote inventive/innovative technologies to the industry, academia and public sector for further development and industrial exploitation**. One of the aims is to promote inventiveness/innovation from PROs to be transferred into economy, primarily through the marketing of the technology, products and services in the form of a breakaway "spin out" companies or licensing.

2. Benefits for participants

All abstracts and posters of sufficient quality will be **published at the International Conference proceedings as ISBN/ISSN publication** and promoted at the conference website and (if agreed by the authors and organizers) at the Enterprise Europe Network (EEN) in the form of technology offer. The submission of the technology offer at the EEN is free of cost.

3. Who is eligible to participate?

The poster section is open to anyone who has an inventive or innovative idea, who is a conference participant, and who is actively participating at the Poster section of the Conference.

Eligible applicants are the conference participants who wish to develop innovative scientific-research ideas and are employed in public research organizations. The proportion of the employment relationship is not restricted.

PRO, where the applicant is employed, must be at least co-owner or holder of the substantive rights from the applicable ideas, know-how, or intellectual property rights which are presented at the poster section.

The applicant must participate in developing the applicable ideas. So must be the author, coauthor, collaborator in the development, but not necessarily the carrier author.

The purpose of the poster section is to promote development projects in the inventive and innovative technological ideas/projects areas:

- Nanotechnology,
- New materials,
- Biotechnology,
- Management technology and production,
- Communication technology,
- Computer technology and technology skills,

- Environmental technology,
- Reactor technology.

4. Abstract and poster submission deadline

Abstracts and posters in accordance with instructions must be delivered in the PDF format by e-mail to tehnologije@ijs.si no later than **10th of September 2012**.

Important dates

- **September 10, 2012:** Final poster and abstract submission deadline.
- **September 12, 2012:** Paper acceptance notification and review process notification.
- **September 18, 2012:** Deadline for final versions of accepted papers.
- **September 26, 2012:** Poster section at the Conference.

5. Abstract template

The abstract should provide sufficient information for the interested potential partners for the exploitation. Please submit the abstract as defined in the template below.

6. Poster guidelines

SIZE LIMITATION:

If the printing is organized by the author himself: no larger than A2 format.

If the printing is organized by the conference organizer: no larger than A3 format.

FORMATING:

- The conference title: »5th International Technology Transfer Conference, 26. – 27. September 2012» should be positioned at the top of the poster.
- List the title and all the authors and organizations.
- Poster should be readable from distance of 1 meeter.
- All print should be dark on a very light (preferably white) background.
- Use letters, arrows, numbers, or other devices to show those who will be viewing your poster the preferred sequence in which your poster should be reviewed.
- Charts, drawings, and illustrations should be similar to those you would use in making power point slides.
- If photographs are used, have them processed with a matte or dull finish.
- Write your presentation concisely, and keep captions brief.
- The poster should be self-explanatory.

ON SITE PRESENTATION:

You can hang your poster 1 day before the poster session.

Handouts of your poster for distribution are recommended.

ABSTRACT TEMPLATE

TITLE:

The title should be clear and meaningful to a person who is not an expert in the technology or application field, and should enable them to form a picture of the companies or researchers in their region that might be appropriate partners.

AUTHORS:

Name, institution, e-mail

TECHNOLOGY DESCRIPTION

Abstract of the offer: Please give a brief description of the technology (max. 500 characters with spaces).

Abstract should answer the following questions:

- Where (geographically) is it from?
- What sort of organization is offering it (SME, industry, R&D organization etc.)?
- What is being offered?
- What can it be used for?
- What are the main advantages?
- What sort of deal is sought?

Description: (min. 100 characters with spaces, together with Innovations and advantages of the offer max. 5000 characters with spaces)

- Describe the technology or product, try to indicate clearly the innovation you propose (provide quantitative data if possible).
- Clearly establish the potential application of the technology, perhaps considering more than one field.
- Provide information about the expertise or know-how of the proposer.
- Do not include sales promotion of your technology or product.
- Do not include advantages of your technology or product, this will come below.

Innovations and advantages of the offer: (min. 50 characters with spaces, together with Description max. 5000 characters with spaces)

- *Innovative Aspects of the Offer:* describe clearly the innovative aspects of the technology. Avoid generalities such as best or unique, but try to specify innovation by comparison with prevailing technologies.
- *Main advantages of the Offer:* give the main economic advantages / benefits of the technology (if possible in a quantitative way), regarding such elements as performance, ease of use, need of specific know-how, or expertise to adopt your technology.

Technical Details

Current Stage of Development:

- Development Phase – Laboratory tested
- Available for demonstration
- Available for demonstration – Field tested
- Already on the market

Exploitation of RTD results

- None
- EU RTD results (FP4/FP5/FP6/FP7) specify:
 - INNOV7
 - Eureka
- ESA
- National Programme
- Private Research
- Other – If other, please specify:

Intellectual Property Rights:

- Patent(s) applied but not yet granted
- Patent(s) granted – Specify the Number:
- Copyright(s) registered
- Exclusive rights
- Secret know-how
- Others – If other, please specify:

Date and reference of the patent if available:

Name of the company associated to this profile:

Type:

- Research institute
- University
- Technical Centre / Technology Transfer Centre
- Other – If other, please specify.

Number of employees:

Collaboration Type:

(Please pick the type of preferred collaboration suitable for further exploitation of the technology - more than one if necessary)

- Licence agreement
- Technical cooperation
 - select one or more
 - Joint further development
 - Testing of new applications
 - Adaptation to specific needs
- Joint venture agreement
- Manufacturing agreement (sub-contracting and co-contracting)
 - select one or more
 - Transfer of knowledge in new raw materials
 - New way to use an existing production line
 - Change in the partner's currently used technologies (installations, process, facilities)
 - Absolutely novel process
- Commercial Agreement with Technical Assistance
 - select one or more
 - Assembly
 - Engineering
 - Technical consultancy
 - Quality control
 - Maintenance
- Other – Financial resources

- Type of partner sought (such as: industry, academy, research organisation):

- Specific area of activity of the partner (example: manufacturer of plastic packages, distributor of plastic packages, user of plastic packages, disposal of plastic packages, etc.):

- Task to be performed of the partner sought:

CONTACT DETAILS:

- Name, email, phone, organization, address.

We would like to publish the profile at the Enterprise Europe Network as the technology offer. Please mark.

Yes.

No, thanks.

TECHNOLOGY KEYWORDS – (Please, mark appropriate ones, *max 5*)

ELECTRONICS, IT AND TELECOMMS

Team

- ABSTRACT
- DESCRIPTION, SOLUTION
 - What is being offered?
 - What can it be used for?
 - What are the main advantages?
 - Value proposition
 - Unique advantages;
 - Describe the technology or product, try to indicate clearly the innovation you propose (provide quantitative data if possible).

Figures...

- *Clearly establish the POTENTIAL APPLICATION of the technology, perhaps considering more than one field.*
- *CUSTOMER/MARKET: who is customer; profile; examples (top 10); market size, trends; customer's decision making process.*
- *TEAM: Provide information about the expertise or know-how of the development/management team.*
- INNOVATION:
 - Innovative Aspects of the Offer: describe clearly the innovative aspects of the technology. Avoid generalities such as best or unique, but try to specify innovation by comparison with prevailing technologies.
 - Main advantages of the Offer: give the main economic advantages / benefits of the technology (if possible in a quantitative way), regarding such elements as performance, ease of use, need of specific know-how, or expertise to adopt your technology.
 - Financials /resources: what do you need to further develop/commercialize the technology/product
