

DIH-WORLD

WIDENING DIGITAL INNOVATION HUBS

**Accelerating deployment and matureness of DIHs for the benefit
of Digitisation of European SMEs**

2022

#DIHWorld

Main objective

DIH-World aims to **accelerate the uptake of advanced digital technologies by European manufacturing SMEs in all sectors** by supporting them in building sustainable competitive advantages and reaching global markets. DIH-World strengthens the capacities of regional DIHs, particularly in underrepresented regions across Europe.

The aim is to **accelerate the matureness of DIHs and the development of their collaboration capabilities**; so DIHs can capitalise and leverage on the European DIHs Networks their resources and facilities for the benefit of their local SMEs.

DIH-World objectives

1. Support the uptake of advanced technologies by European industry - especially SMEs and mid-caps - notably in sectors where digital technologies are underexploited

2. Enlarge and **accelerate** the establishment and development of DIHs

3. Consolidate and **reinforce** the existing DIHs networks and I4MS ecosystem
