Each year, CIRIDD accompanies :

- Regional local authorities to build their circular economy strategic roadmaps and get national circular economy labels
- Regional companies to transform their economic models towards cooperation and functional economy
- Regional territories and agencies to set up circular economy strategies with regional industrial sectors

Past participation in European collaborative projects for :

- Qualitative analysis of circular economy concepts
- Development of dedicated tools and international platforms
- Dissemination and communication of results
- Production of case studies

2019 – 2021 OSCAR Project

Co-funded by the Creative Europe Program of the European Commission. Oscar explored new ways of designing, producing and managing opera sets after the paradigm of circular economy in order to make them sustainable.

2019 – 2021 DIGIFOF Project

Co-funded by the Erasmus+ program of the European Union. DIGIFOF proposed an organizational platform where HEIs, companies, and training institutions come together to develop skill profiles, training, and teaching concepts as well as materials for different FoF-design aspects.

2009 – 2012 Construction21 Project

Co-funded by the Intelligent Energy European Program. Construction21 disseminates free information and good practices from stakeholders in the building and sustainable city. This platform open to all professionals deals with all subjects of building, the city, and sustainable territories.

Sébastien Béclin
