

The International Centre of Resources and Innovation for the Sustainable Development (CIRIDD) is looking for European partners to collaborate on a Horizon Europe R&D collaborative project in 2024.

Summary

The International Center for Resources and Innovation for Sustainable Development (CIRIDD) is a non-profit association created in 2005 that aims to contribute to the emergence of new models of society, more respectful of living beings, future generations, and the planet.

CIRIDD is looking for European partners to complete an existing consortium and apply for a Horizon Europe call in early 2024 in the field of digital solutions applied to manufacturing.
