VAT: HR88776522763

Address (Street, number): Ilica 24

City: Zagreb

Post Code: 10 000

Country: Croatia

Website: <https://hrzz.hr/en/>

PROFILE:

Type of Organisation: Public body

BACKGROUND AND EXPERIENCE:

The Croatian Science Foundation is a leading institution dedicated to advancing scientific research and innovation in Croatia. Established in 2001 by the Croatian Parliament, it operates under the Croatian Ministry of Science, Education and Youth. Its mission is to promote excellence in science, facilitate international collaborations, and support technological advancements in Croatia.

The Foundation's strategic goal is to provide stable funding for research teams focusing on internationally and/or nationally significant scientific topics. These teams conduct basic, applied, or developmental research, contributing to the creation and enhancement of knowledge. The Foundation primarily supports competitive research projects that foster connections among scientific organizations, researchers, and equipment. Additionally, it funds installation research projects, which aim to establish new research teams led by young scientists at the outset of their independent research careers, identified by their institutions as future leaders in scientific development.

Currently, the Foundation operates from two offices – in Zagreb and Opatija – with a total of 40 employees, organized into 7 units and 13 departments.

LEGAL REPRESENTATIVE:
