PIONEERING THE COMMERCIAL SPACE AGE & ADVANCING SPACE DOMAIN DEFENCE

Farnborough International Space Show is the must-attend, annual UK space industry event to pioneer the commercial space age. Taking place between 19-20 March 2025 at Farnborough International Exhibition and Conference Centre, the event connects the global space community across industry, defence, government and academia.

THE HOME OF AEROSPACE & SPACE BUSINESS

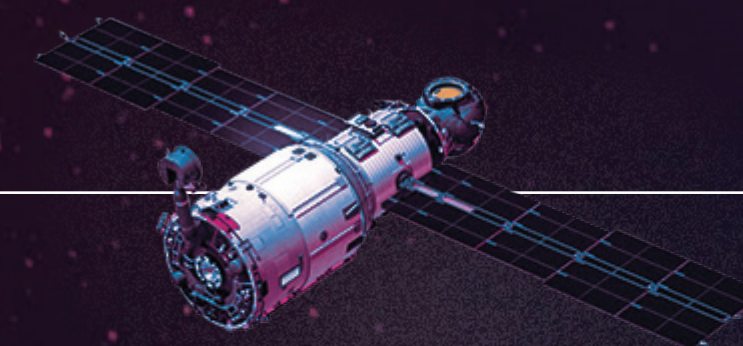

Farnborough International Space Show will continue to welcome and connect the global space community at Farnborough, the established home of aerospace and space business, and global destination for the pioneers of today and tomorrow for the last 75 years.

A PROVEN LEGACY TO CONNECT GLOBAL INDUSTRIES, DEFENCE & GOVERNMENT

Organised by the team at Farnborough International (FIL), the trusted convening power across global advanced manufacturing sectors, defence and government, at Farnborough International Airshow and its Space Zone.

UK SPACE AT THE HEART OF INTERNATIONAL COLLABORATION

Farnborough International Space Show is committed to supporting the UK Government to grow our space economy, and make the UK one of the world's most innovative and attractive space economies in the world, through facilitating high-level innovation and collaboration.

FOR THE SECTOR, BY THE SECTOR

Delivered in partnership with Founding Sponsors ADS, the trade association for the UK's aerospace, defence, security and space industries, and Ukspace, the trade association of the UK space industry, the show is backed by major industry primes through to SME members and start-ups across the space value chain.

Kevin Craven

CEO, ADS

"We're delighted to support the launch of Farnborough International Space Show, at a time where support to the UK space industry is more pivotal than ever. The £17.5 billion UK space industry contributes £7 billion to the UK economy. This pioneering new exhibition will allow the industry to leverage a trusted convening power across advanced manufacturing sectors, with a particular focus on political and international stakeholders. Support from partners such as UKspace further highlights our continued commitment to fostering partnerships that benefit our members across the country."

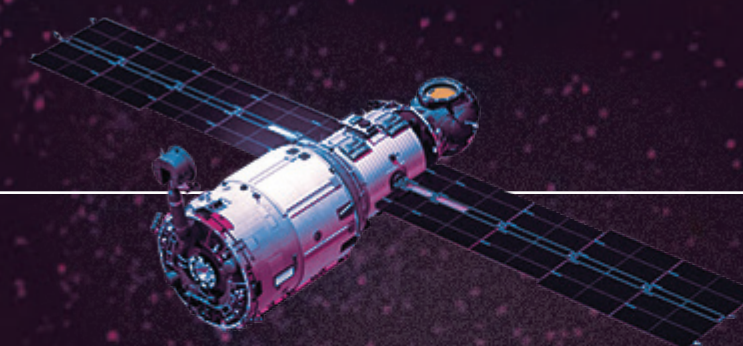

Lizzie Kerr

DIRECTOR, UKSPACE

"Following many years of partnership with Farnborough International, UKspace is delighted to support the introduction of Farnborough International Space Show. With a programme of activity centered around senior space stakeholders across the commercial, industrial, academic and political sectors, we look forward to a continued collaboration with ADS Group and FIL to deliver a pioneering event on behalf of our members."

THE HOME OF AEROSPACE BUSINESS

Space has been an integral part of Farnborough's aviation history and is integral to many of the leading aerospace events we host and organise today.

Since as early as the 1930s, early space pioneers have conducted vital tests at Farnborough to advance technology used for space travel. This has included cooperation with NASA on high altitude flight and spacesuits, development of the Skylark Rocket and astronaut training programmes.

Throughout this time, interest in the space sector has grown massively and since 2010 a dedicated Space Zone has been a part of the world-famous Farnborough International Airshow.

Alongside the Airshow, Farnborough has played host to a series of annual space industry events since 2021.

Throughout this time, our expert team has secured key international and domestic delegations and senior space industry stakeholders across all events.

FIL's specialist content team are also responsible for the curated programme of high-level insight from our network of world class space sector thought leaders across industry, government, and academia.

Our award-winning operations and event management teams have and continue to deliver exceptional event experiences where meaningful business and connectivity is guaranteed.

DELIVERED BY A TRUSTED TEAM

Our team of experts work across the entire Farnborough International aerospace portfolio, including the world-renowned Farnborough International Airshow and its Space Zone, and are the previous core organising team of Space-Comm Expo (2021-2024).

WHERE THE GLOBAL SPACE COMMUNITY MEETS

WHO WILL YOU MEET?

Meet with senior decision makers and active buyers across the space ecosystem:

- | | | | |
|-----------------------------------|--------------------|------------------|-----------------|
| AEROSPACE | ACADEMICS | ANALYSTS | AVIATION |
| C-SUITE LEVEL & SENIOR MANAGEMENT | | DEFENCE | |
| ELECTRICIANS | ENGINEERS | GEOSPATIAL | |
| GOVERNMENT | INVESTORS | MEDIA | MILITARY MINING |
| PURCHASING AND PROCUREMENT | | SPACE SCIENTISTS | |
| TECHNOLOGISTS | TELECOMMUNICATIONS | TRANSPORT | |

Farnborough International Space Show will convene a global audience of key space manufacturers and suppliers, senior buyers and influencers, government departments and agencies, and C-Suite professionals from across the space value chain, upstream, midstream and downstream.

The development of meaningful business and connectivity is guaranteed by utilising Farnborough International's recognised and trusted Business Connections Exchange and renowned UK and international Delegations programmes.

ACCESS UNRIVALLED THOUGHT LEADERSHIP, CONTENT & INSIGHT

Farnborough International Space Show will continue to host a curated programme of high-level insight from world class thought leaders across the space industry, government and academia.

The free-to-attend conference will catalyse innovation and collaboration on the issues that matter most to the UK space sector and the global space industry.

WHAT TO EXPECT?

In recent years we have welcomed many astronauts to Farnborough including Tim Peake CMG, NASA Astronaut Charles Duke (Apollo 16), ESA Astronaut Matthias Maurer and ESA Astronaut Samantha Cristoforetti (via live link to the ISS).

Leaders in the field have also taken part in our thought-leadership sessions, recently including ESA Director General Josef Aschbacher, Dr Paul Bate CEO of UK Space Agency, Melissa Thorpe Head of Spaceport Cornwall, Rebecca Evernden, Director of Space, Department for Business, Energy, and Industrial Strategy (BEIS), Dr Alice Bunn, President-Elect, UKspace and many other C-Suite speakers.

THE ENTIRE SPACE ECOSYSTEM UNDER ONE ROOF

The event is focused on delivering meaningful business development and connectivity across space, defence and government, educating and advancing the UK space industry, and supporting UK critical technology to grow the UK space economy.
